

Course Overview:

This two hour assessment only course covers the knowledge required to be assessed on the Scottish Water Byelaws certificate.

Who Is This Course For:

After successful completion of this BPEC accredited course you will be able to apply to your local water company to be an “approved contractor”. This means you can self-certify your plumbing work and also work for housing associations and other various non-government bodies.

Key Learning Areas Covered in This Course:

- Introduction, background and legislation
- The Water Byelaws
- Materials and substances in contact with water
- Requirements for water fittings
- Water system design
- Installation commissioning
- Cross connections
- Back flow prevention
- Cold water services
- Hot water services
- WCs and urinals
- Sanitary appliances and water for outside use

Course Duration / Fees / Location:

1 day training course, £275+VAT per delegate. Available On-site. Accommodation from £98+VAT (including DBB)
